

Freestanding Videowall stand with bracket system

HS Video Wall Stand

Freestanding mobile video wall bracket system, the ZDS HS system is a mobile mounting solution for video wall screen and is available for screen from 46"~65" displays.

Tool-less and Micro adjustment to speed up the installation process. Also modular design gives you the freedom to expand your set up horizontally as necessary. This is a perfect solution for customers who need a mobile presentation system for exhibit, event, digital signage applications, and more.

Quick setup

Locking Caster

8 points micro adjustment

600x400

46"~65" Display

Steel and aluminum construction

EASY FRAME INSTALLATION

One person can install the video wall stand frame. Just hook the horizontal rod on vertical column. With this hook and hang design reduces video wall installation time by more than 70%.

ALIGN YOUR DISPLAYS SEAMLESSLY

8 point tool-less micro adjustment for seamless screen alignment that save time and facilitate proper placement. (Easily align displays with independent height, plumb and lateral shift adjustment)

CREATE UNLIMITED VIDEO WALL CONFIGURATIONS

Modular frame allows videowall assembly in an unlimited number of configurations.

VERTICAL SHIFT

Based on high pillar made out of durable aluminum, the possibilities for height adjustments are very good and it is possible to provide perfect viewing angle for both a sitting and a standing audience. This movable video wall solution creates a solution that can be used for presentations, trade shows, store or office entrances.

Customizable solution

With the right combination of durability and serviceability, we provide standardized and cost efficient solutions or even custom fabricated steel and aluminum video walls designed to fit most applications or environments.
